Gentlemen:

According to your letter of August 15, 1977, the subject well produces relatively no liquids. Therefore, I fail to understand why a 24 hour shut-in would hurt the well.

Unless you are able to submit information to show that damage will occur, the annual test will be required.

Further, to date this office has not received a monthly production report, Form C-115, on the well. Please submit a copy of said report starting with the January, 1977 report.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

W.A. Gressett
Supervisor, District II
