

5. Location of Tank Batteries and Flow Lines

Tank battery on southwest edge of pad, separator due west of wellhead, flow lines from well to tanks and pipeline.

6. Location and Type of Water Supply

Fresh water to be piped from prolific water well in NW/SE Section 1, T-20-S, R-28-E.

Brine water as needed to be hauled by tanker truck from nearest commercial source.

7. Methods for Handling Waste Disposal

Solid debris will be placed in a separate dug trash pit and then covered upon completion of drilling operations with a minimum of 24 inches of soil.

8. Location of Camps

None

9. Location of Airstrips

None

10. Location Layout (Rig, Pits, Pipe Racks, etc.)

See Exhibit "C".

11. Plans for Restoration of Surface

In accordance with regulations. All pits to be filled and leveled.

12. Any Other Information

Terrain is relatively flat with minimal vegetation. No creeks, gullies or washes extreme enough to present special consideration.
