Re: Repair work for DHY #1  
Ut F Sec 23, T-19, R-28

Mr. K. W. Chen,

In August 1994 a packer leakage test was conducted on your above captioned well and the test results indicate packer failure.

In September 1994 I sent you a letter notifying you that this well would need to be repaired. To date we have had no response from you on this matter.

I will extend this time to August 7, 1995 only. Please let me hear from you as soon as possible regarding this matter.

Yours Truly,
