Re: DHY State #1 F-23-19-28, Eddy County, NM

Gentlemen:

On July 16, 1991 a notice was sent to the above address informing you that a packer leakage test was to be run on the subject well annually and filed with this office no later than October 15, 1991.

To date we have received no response to this notice or to a second notice dated January 7, 1992.

Our records indicate that the N.Winchester Wolfcamp zone is temporarily abandoned. A packer leakage test must still be run to show segregation between the two zones.

Please notify this office of your intentions immediately. Failure to comply may result in cancellation of allowable.

Sincerely,

Johnny Robinson
Oil & Gas Inspector
