RE: DHY State B # 1 L-11-19-28 API 30-015-21971 Idle Well: **Violation of Rule 201**. Open unlined pit contains fluid and oil. No fence or netting: Violation of Rule 18 & 105. Tank on location has leaked oil out on to location and run into pasture: **Violation of Rule 13 & 116**. No well sign: **Violation of Rule 103**.

Dear Sirs:

This second directive is to notify you that this well is still in violation of the above Rules.

On 11 June, 2002 a letter was sent notifying you on the violation of Rules. An inspection on 9-18-02 found no action had been taken.

In the event that a satisfactory response is not received to this letter of direction by 18 November, 2002, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of **CIVIL PENALTIES** for your violation of OCD rules.

Sincerely,

Van Barton
Field Rep. II
