Re: Packer Leakage Test
Littlefield "EM" Fed.Com #1
Ut.J 20-18S-31E

Gentlemen:

We are returning the packer leakage test on the subject well. It is our opinion that the North Shugart Morrow and the North Shugart Atoka zones are communicated.

This well should be shut-in and the repairs made as soon as possible. Please notify this office twenty four (24) hours prior to the work being done.

If you have any further questions concerning this matter please feel free to call me.

Repaired 9/7/84

Sincerely, .

Mike Williams
