17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

It is proposed to begin operations to test for the source of the increasing water production, which the Bass State #1 has been experiencing.

The program will consist of testing for a casing leak and/or the individual sets of perforations within the Strawn interval from 10,258-480' to determine the water source. It is planned to stop the water entry by conventional squeeze cementing techniques.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Ron Silbreath TITLE Production Manager DATE Nov. 16, 1979

APPROVED BY For Record Only TITLE SUPERVISOR, DISTRICT II DATE NOV 21 1979
