Eddy County, NM

Gentlemen:

You report, Form C-103, made no mention of the conductor pipe that was set or the kind and amount of cement used.

On the 8 5/8" casing, you need to give the specific kind of cement with additives and the amount. We need a copy of the temperature survey run and the results.

On the 1" of the 8 5/8" casing, you need to tell how many stages were pumped, a total of how much and what was pumped through the 1". The amount of redi-mix used also needs to be stated.

Your immediate attention to this matter will be appreciated.

Sincerely yours,

Mike B. Williams  
Oil & Gas Inspector
