This well was plugged and abandoned by Mesa Petroleum Inc. on 1-24-85. Hanley proposes to reenter the existing wellbore, drill out cement plugs, and run 5 1/2" casing. All operations will be confined to the existing well pad site. The archaeological clearance for this site was submitted by Mesa Petroleum on May 18, 1978.

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and proposed new productive zone. If proposal is to drill or deepen directionally, give pertinent data on subsurface locations and measured and true vertical depths. Give blowout preventer program, if any.
