Artesia, New Mexico 88210

Gentlemen:

The surface use and operations plan for the proposed well are as follows:

1. Existing Road

- a. Exhibit "A" is a portion of a general highway map showing the location of the proposed well as staked. Go approximately fourteen (14) miles northwest of Carlsbad, New Mexico on Highway 285. Turn left onto paved road and follow for approximately six (6) miles. Turn left onto caliche road and proceed east on road for approximately 1/2 mile. Then turn right on proposed new road and go approximately 1400' to location.
- b. Exhibit "B" is a portion of a lease map showing all existing roads within a one mile radius of the well.
- c. There is approximately 1900 feet of road from the proposed new road to existing cattleguard that requires repair to the caliche surface. This section of road is color-coded brown on Exhibit "B".

2. Planned Access Roads

- a. Length and Width: The new road required will be 12' wide and approximately 1400' long. The new road is color-coded red on Exhibits "A" and "B". The proposed road has been staked and flagged.
- b. Surfacing Material: Six (6) inches of caliche, water compacted and graded.
- c. Turnouts: None Required
- d. Culverts: None Required
