Gentlemen:

Bass Enterprises Production Company is currently testing the subject well in the Bone Springs horizon as approved by the OCD November 6, 1979 through Form C-103. Lease storage capacity is only a temporary 2000 barrels and testing of the Bone Springs is anticipated to produce approximately 4000 barrels of oil. Therefore, we ask your approval to sell the produced test oil from the lease.

Yours very truly,

J. E. Pullig
Division Manager
