Leasehold Production Request -  
State "HE" Com No. 1, K-11-19S-27E,  
Angell Ranch Atoka-Morrow Pool,  
Eddy County, New Mexico

Amoco Production Company - Hobbs  
P. O. Box 68,  
Hobbs, New Mexico 88240

Attention: Mr. L. R. Smith

Gentlemen:

Your subject letter of January 29, 1985, has been received. This is to authorize production of this well - with a 50 Mcf/Day cap - on February 28, 1985, and on March 1, 1985, to cover the February and March, 1985, required production periods. Our letter of January 23, 1985, authorized a like amount of production on January 28, 1985, to cover the January, 1985 production period. Future leasehold production requests, if necessary, must be received - in writing - by this office in sufficient time to coordinate the production allowance with our field personnel.

It is Phillips intent to work with all gas well operators in the Artesia Gathering Systems to allow leasehold production. However, it has been necessary to establish the 50 Mcf/Day production cap for each well in order not to overload the safety features and capacities of the plant and its gathering systems.

Please coordinate the production of the State "HE" Com No. 1 with our Artesia Plant Superintendent - Don Laird, telephone (505) 677-3154.

Cordially,

  
J. W. Maharg
