Dear Sir:

After communicating with your office during your illness, we are enclosing an amended C-104 to request adjustment of the allowable for the captioned well.

At the time we filed our completion forms, we had not run the required 4 point test to establish an accurate potential for the well. The test, indicated on the C-104 included in the completion packet, represented only a flow test prior to completion. Later, we ran the in line 4 Point Test, cleared by your office. The enclosed C-104 depicts the result of said 4 Point Test taken on 9-19-80.

We therefore request that adjustment in allowable be made to correspond to the actual potential.

Sincerely yours,

C. C. Parsons
District Operations Engineer
