

10. PLANS FOR RESTORATION OF SURFACE

- A. After finishing drilling and completion operations all equipment and other materials not necessary for operations will be removed. Pits will be filled and leveled and the location cleaned of all trash and junk to leave the wellsite in an aesthetically pleasing condition as is possible.
- B. Any unguarded pits containing fluids or trash will be fenced until they are filled or leveled.
- C. After abandonment of well, and equipment will be removed, the location will be cleaned, and the pad and access road will be ripped and returned to as near the original appearance as is possible.
- D. A copy of the Agreement for Compensation and Rehabilitation of Privately Owned Surface Rights is enclosed. This covers the portion of the access road that will cross land owned by Mr. Bill Evans of Midland, Texas.
