Re: Gas Oil Ratio Test  
Martinez 31 Federal Well No. 1  
Unit F, Sec. 31, T-19S, R-29E  
Wildcat Bone Spring

Dear Sir:

In reference to your notice dated July 29, 1980, we will not be able to take a 30 day Gas Oil Ratio Test on the above well.

This well was shut in on July 28, 1980 due to allowable production and will remain shut in until a casinghead gas connection can be made as per your order. Gas production was last measured on July 21, 1980, two days after completion.

As soon as the gas connection is made a test will be submitted to your office.

Very truly yours,

A handwritten signature in cursive script that reads 'Ralph M. DePauw'.

Ralph M. DePauw  
Production Engineer
