RE: Required Multi Point Back ✓
Pressure Test for Cities
Service's Government AK Well
No. 1, J-7-19-21, Wildcat
ABO Area, Eddy County, New Mexico

Gentlemen:

In reference to your request regarding a required Multi Point Back Pressure Test within Sixty (60) days after initial connection date for the above captioned well please be advised that this required pressure test was not taken due to the small amount of only 103 MCF of gas being produced through an 8/64" choke with a FTP of 400# during a 1 PT. 24 hr. completion test.

With this known information as to the small flowing capacity, Cities Service Company respectfully requests that the Government AK Well No. 1, J-7-19-21, Eddy County, New Mexico, be exempted from this required multi point back pressure test.

Very truly yours,

CITIES SERVICE COMPANY
