12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The New Mexico Land office has declined east half communitization for this well. We are therefore re-submitting amended acreage dedication plats. Note: no completion was ever filed for Morrow perforations 9067-9153', nor Canyon perforations 7612-7640'; however, both horizons were temporarily abandoned with retrievable bridge plugs at 9040' and 6675'. Since the dedicated acreage will not be communitized acreage we ask that the designation "Com" be dropped from the well name.

13. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
