Re: State A 32
#1-J-32-19-28
Eddy County, NM

Gentlemen:

We hereby acknowledge receipt of the Completion Report and Logs on the subject well.

According to Form C-105 the well was completed 8-23-80 and the report was not submitted until 4-21-81 upon our request.

Please see that all future reports are timely submitted.

Further according to our Geologist Larry Brooks the tops are as follows, 3rd Bone Spring sd. 8212, Wolfcamp 8660, Penn 9495, Strawn 9803, Atoka 10235, Morrow Ls 10678, Morrow Clastics 10757.

This puts your top perms 10627-636 in the Atoka rather than Morrow as shown.

As a result of this we are putting the well in the Angell Ranch Atoka Morrow Gas Pool.

If you have any questions concerning this matter please feel free to call upon me.

Sincerely,

W. A. Gressett
Supervisor, District II
