Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Morrow interval 9151-9171' was perforated and we had no increase in production. BHP showed same stage of depletion as perfs 9186-96'. We propose to squeeze perfs 9151-96' and perforate 9104-12', stimulate if needed and return to production.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
