Gentlemen,

As requested per your telephone call of June 26, 1980 attached please find corrected acreage plats for the referenced well. The new plats show 320 acres dedicated to the well rather than 40 acres as shown on the original plats. A sketch of the blowout equipment for the Cactus Drilling Rig No. 15 has been attached.

This is, also, to advise that the well has not been dedicated to any gas purchaser.

Very truly yours,

MITCHELL ENERGY CORPORATION
