Re: State 30 A Com #1
Unit B, 30-19-28
Eddy County, NM

Gentlemen:

Several tops that your staff has reported are a little different than ours.

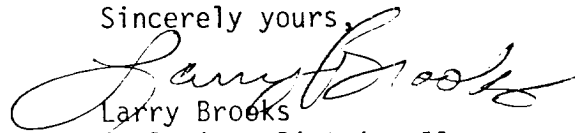

Your staff picks the following:

Tubb @ 5349'
Wolfcamp @ 6320'
Cisco @ 7435'
Canyon @ 7977'
Strawn @ 9181'
Atoka @ 9760'

However; our tops indicate that @ 5349 this is in the Bone Spring, 8175 Bone Spring Sand. Wolfcamp @ 8528, Penn. @ 9143, Atoka @ 9900, Morrow Lime @ 10410 and Morrow Clastic @ 10503. However; if in the future you re-evaluated this well for alternative production after the Morrow plays out, you may encounter commingling difficulties.

Please feel free to discuss this matter with me at this office.

Sincerely yours,

Larry Brooks
Geologist, District II

P.S. The C-105 submitted on the Southland Royalty Company 30 Com #1-J in 30-19-28, has a closer correlation to my picks than the C-105 submitted on 30 A, B-30-19-28.
