SURFACE USE PLAN  
Conoco Inc.

Penny Federal Com No. 2  
Sec. 23, T-20S, R-24E  
Eddy County, New Mexico

U.S. GEOLOGICAL SURVEY  
ARTESIA OFFICE

OCT 17 1980

U.S. GEOLOGICAL SURVEY  
ARTESIA, NEW MEXICO

The plan is to accompany "Application for Permit to Drill" the subject well. The following is a discussion of pertinent information concerning possible effect which the proposed drilling of the well may have on the environment of the well and road sites and surrounding acreage. A copy will be posted on the derrick floor so all contractors and sub-contractors will be aware of all items of this plan.

1. Existing Roads

- A. The proposed well site is 1650' FNL and 1980' FEL, Sec. 23, T-20S, R-24E, Eddy County, New Mexico.
- B. Exhibit A is a portion of a New Mexico road map showing existing roads. Directions to the location are as follows: From Artesia, New Mexico travel south on Highway 285 14 miles to the power company substation. Turn west and go 9 miles to the Amine plant, then 1 mile beyond. Turn east one mile to the pipeline right of way. Go 1/4 mile south and 1/8 mile east to the location. See Exhibit B.
- C. Access roads are shown on Exhibits B and C.
- D. No improvement or maintenance is anticipated for the existing roads.

2. Planned Access Roads

- A. Width and Length: New road required will be 12' wide and 1320' long. This new road is labeled and coded on Exhibits B and C.
- B. Turnouts: None.
- C. Drainage Design: New road will have a drop of 6" from center line on each side.
- D. Culverts, Cuts and Fills: None.
- E. Surfacing Material: Six inches of caliche, bladed, watered and compacted.
- F. Gates, Cattleguards and Fences: One cattleguard at beginning of new road.
- G. The proposed road is staked.
