Unit-K, 15-19-26
Eddy County, New Mexico

Gentlemen:

The following are answers to the questions posed in your letter dated September 11, 1981, regarding the above referenced well:

13 3/8" csg.

1) WOC time - 18 hrs

8 5/8" csg.

- 1) No cement circulated on the first stage.
- 2) Temperature survey was run to determine the top of cement.
- 3) Filled the annulus through the 1" tubing to bring the cement to the surface.
- 4) WOC time - 24 hrs
- 5) 13 3/8" pressure test to 800#
8 5/8" pressure tested to 1500#
BOP pressure tested to 1500#.

I have attached Form C-103 with the above information added to it.

If this does not fully answer all the required information, please contact me.

Yours very truly,

AMERICAN PUBLIC ENERGY COMPANY

Barbara A. McCarley
