Re: New Mexico CZ State
#1-I-2-19-29
Eddy County, NM

Gentlemen:

We are returning the enclosed Form C-101 on the subject well for corrections.

The surface casing must be set at the top of the Salt section at approximately 330' and your proposed depth of 11,000 will not penetrate the Morrow Formation.

Further the Atoka and Morrow zones must be kept separated in the well bore.

If you have any questions concerning this matter please feel free to call upon me.

Sincerely,

W. A. Gressett
Supervisor, District II
