Sec. 5, T. 19 S., R. 25 E.
Eddy County, New Mexico

Gentlemen:

Notice to Lessees and Operators, NTL-2B, issued effective January 1, 1976, required that applications for disposal of produced water be filed for approval and that all disposal methods must conform with the requirements of said notice.

According to our records, the water disposal method has not been approved for water being produced on the above captioned well.

If prior approval has been received, please reply and attach a copy of the approval.

An application for approval of the proposed disposal method should be filed with this office, pursuant to NTL-2B, within 30 days from date of this notice.

Sincerely yours,

James A. Gillham
