

F. Culverts: None required.

G. Gates, Cattleguards: None required.

3. LOCATION OF EXISTING WELLS:

A. Existing wells in the facinity of the proposed drillsite are shown on Exhibit "C".

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES:

A. Harlan has a tank battery on the leasehold. It is located about 800 feet northeast of the proposed drillsite.

B. If the well is productive, a flowline will be laid on top of the ground. Electric power lines will be laid from the existing powerline at Well No. 1 along the proposed road to the proposed wellsite.

5. LOCATION AND TYPE OF WATER SUPPLY:

A. It is not planned to drill a water supply well. Water for leasehold operations will be purchased from a commercial water hauler.

6. SOURCE OF CONSTRUCTION MATERIALS:

A. Material for construction of the road and well pad will be obtained from an existing Federal pit in the SW $\frac{1}{4}$ SW $\frac{1}{4}$  Sec. 20-19S-31E.

7. METHODS OF HANDLING WASTE DISPOSAL:

A. Drill cuttings will be disposed of in the drilling pits.

B. Drilling fluids will be allowed to evaporate in the drilling pits until the pits are dry.

C. Water produced during tests will be disposed of in the drilling pits.

D. Oil produced during tests will be produced into temporary test tanks.

E. Trash, waste paper, garbage, and junk will be buried in a trash pit and covered with a minimum of 24 inches of dirt. All waste material will be contained to prevent scattering by the wind. Location of the trash pit is shown on Exhibit "E".
