

INSTRUCTIONS

This form is to be filled with the appropriate Identifier Office of the Division not later than 30 days after the completion of any newly-drilled or deepened well. It shall be accompanied by one copy of all electrical and chemical data taken on the well, and a summary of all special tests conducted, including drill stem tests. All depths reported shall be rounded down to the nearest foot. In the case of directionally drilled wells, true vertical depth shall also be reported. For multiple completions, Items 3a through 4 shall be repeated for each zone. This form is to be filed in a separate file except on state land, where six copies are required. (Include 1145)
