GAS PRODUCERS TO PHILLIPS PETROLEUM COMPANY'S ARTESIA PLANT

O. C. D. GATHERING SYSTEM

ARTESIA, OFFICE

This is to advise that Phillips Petroleum Company's Artesia Plant will be shut down at 6:00 a.m., M.D.T., Tuesday, December 11, 1984. This shut down is necessary to make process revisions and to perform minor maintenance duties. It is anticipated that gas will be turned back into the gathering system at approximately 6:00 a.m. M.D.T., Wednesday, December 12, 1984.

We ask that producers shut out their gas to the Artesia Gathering System during this period. Since no gas can be taken into the system during this shut down, any deliveries through the gas meters during this time period will be deducted from the total sales deliveries for the month when volumes are recorded in the gas settlement statements. Any requests for variances to flare gas on the lease should be directed to New Mexico Oil Conservation Division.

Please accept our apologies for any inconveniences which may be caused by this short notice and if you have any questions regarding this shut down, you may contact Phillips Petroleum Company's Hobbs Office, AC 505-393-5121.

Very truly yours,

PHILLIPS PETROLEUM COMPANY
