Attention: District Supervisor

Dear Sir:

Per telephone conversation with Ms. Mae Morgan 8/29/91 regarding the overproduction of casinghead gas for the referenced well, we as operator request that additional time be allowed so that we can bring the overproduction of casinghead into balance by producing the well at a lower rate. Overproduction for this well should be balanced by October 1, 1991.

Sincerely,

*Earlean Parker*  
Earlean Parker  
Production Assistant
