(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

On Form 3160-3, Application for Permit to Drill, a typographical error was made for the setting depth of the 13-3/8" surface casing. The setting depth indicated was 450' on Form 3160-3, however as outlined in the well plan, the setting depth was planned for 750'. 13-3/8" casing was actually set at 753'.

14. I hereby certify that the foregoing is true and correct
