

MULTI-POINT SURFACE USE & OPERATIONS PLAN

BTA Oil Producers

#1, Lusk, 9206 JV-P
1980' FNL and 1980' FEL
Sec. 12, T-19-S, R-31-E
Eddy County, New Mexico

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the referenced well. The plan describes the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance, and the procedures to be followed in rehabilitating the surface after completion of the operation so that complete appraisal can be made concerning the environmental effects associated with the operations.

1. Existing Roads

- A. Exhibit -A- is a topographic map showing the location of the proposed well as staked with existing roads and conditions within the one mile area. The proposed location is approximately 27 miles West from Hobbs, New Mexico as shown on Exhibit -B-.
- B. From Hobbs, take Highway 62/180 west for 14.5 miles to Highway 243, turning right and go northwest 4.2 miles. Turn right on County Road 126 and go north 7.2 miles. Turn left and go west on lease road 1.5 miles, then south 200 feet to the wellsite.

2. Access Road

- A. Our access road will be 861 feet south from the existing lease road as shown on Exhibit -C-.
- B. Caliche will be used for the access road; watered, compacted and graded.
- C. The access road will be crowned for drainage and maintained during drilling operations and, if productive, as long as producing.

3. Location of Existing Wells

- A. All existing wells within a one mile radius of our proposed well are shown on Exhibit -D-.
