13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation respectfully requests permission to keep this well as a Pressure Monitor Well for a period of one (1) year in order to fully evaluate as follows:

1. Could be used as an injector or a producer if waterflood develops in the Dagger Draw area. Would like to leave as is and continue to monitor.

2. Well has been on vacuum during monitoring period. Pressure has increased to 12 psig. Yates Petroleum Corporation needs time to evaluate the pressure change and what caused the pressure change. Would like to continue to monitor the pressure to see if the pressure will increase.

Approved For 12 Month Period

3. Look at different waterflood patterns and scenarios.

Ending 3/4/2001

4. Could be a possible deepening candidate for the Morrow. Will evaluate other Morrow wells in the area.

14. I hereby certify that the foregoing is true and correct
