

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

**Yates Petroleum Corporation
CONOCO AGK FEDERAL #15
1980' FEL AND 660' FSL
Sec. 26-T20S-R24E
County Eddy, State New Mexico**

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of the surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operations.

1. EXISTING ROADS:

Exhibit A is a portion of the BLM map showing the well and roads in the vicinity of the proposed location. The proposed wellsite is located approximately 32 miles Southwest of Artesia New Mexico and the access route to the location is indicated in red and green on Exhibit A.

DIRECTIONS:

1. Go south of Artesia on Highway 285 for approximately 15 miles to Rock Daisy Road.
2. Turn west and go approximately 8.2 miles to Sawbucks Road.
3. Turn South approximately 3.4 miles to Pickett Road
4. Turn east and go approximately 1 mile.
5. Turn south on lease road for approximately 1 1/2 miles.
6. Turn east to Conoco "AGK" Federal #3 location.
7. Turn South to the Conoco AGK Fed. #11 location.
8. New road starts here going south.

2. PLANNED ACCESS ROAD

- A. The proposed new access will be approximately 1000' in length from the point of origin to the southwest corner of the drilling pad. The road will lie in a(n) north to south direction.
- B. The new road will be 14 feet in width (driving surface) and will be adequately drained to control runoff and soil erosion.
- C. The new road will be bladed with drainage on one side. No traffic turnout will be built.
- D. The route of the road is visible.
- E. Existing roads will be maintained in the same or better condition.

3. LOCATION OF EXISTING WELL

- A. There is drilling activity within a one-mile radius of the wellsite.
- B. Exhibit D shows existing wells within a one-mile radius of the proposed wellsite.
