13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Change location of surface location due to archeological findings discovered on the previous well site. New location is 330' FNL and 2,460' FWL. This is recommended as the preferred site by Dr. Haskell with New Mexico Archeological Services, Inc. in his report dated May 20, 1993. A copy of this report was submitted to the BLM 05/02/93.
