|           | 5-1/2"      | 17#, 20# & 23#     | 9,650'        |                 |               |
|           |             |                    |               |                 |               |
|           |             |                    |               |                 |               |

Describe the proposed program. If this application is to DEEPEN or PLUG BACK give the data on the present productive zone and proposed new productive zone. Describe the blowout prevention program, if any. Use additional sheets if necessary.

Propose to drill the well to sufficient depth to evaluate the Morrow formation. After reaching TD, logs will be run and casing set if the evaluation is positive. Perforate, test and stimulate as need to establish production.

Modify N.M.O.C.C. in sufficient time to witness cementing  
No 9 5/8" casing

Acreage Dedication is 320 acres; N/2 of Section 26.

I hereby certify that the information given above is true and complete to the best of my knowledge and belief.
