☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

. Concho Resources, Inc. requests the approval to move the location of their West Shugart "30" Federal # 3 from 2310' FEL & 660' FNL of Sec. 30 to original location that was approved for Penwell Energy, Inc. on April 8 1997 at the location of 360' FNL & 1980' FEL of Sec. 30. The reason for this move is to avoid an Archaeological site.

. It is also requested to alter the surface casing setting depth from 450' to 760' at the request of the Roswell BUREAU OF LAND MANAGEMENT field office and change the volume of cement from 450 Sx. to 800 Sx.

I hereby certify that the foregoing is true and correct
