

## SURFACE USE AND OPERATING PLAN

Attachment to Form 3160-3  
Anadarko Petroleum Corporation  
Baish Federal No. 11  
845' FSL & 770' FEL  
Section 9, T18S, R31E  
Eddy County, New Mexico

**REVISED ROAD PLAN**  
**Per Barry Hunt's Request**  
**Submitted 05/26/2000**

**Revised Items:**  
**Items 1.B, 1.C, Exhibit 3**

### 1. Existing Roads

A. The well site and elevation plat for the proposed Baish Federal No. 11 are reflected on Exhibit #2. The well was staked by John West Engineering of Hobbs, New Mexico.

9B  
5/26/00 B. Approximately 0.3 mile of new road will be built south from the existing road on Exhibit #3 at the Baish Federal No. 10.

9B  
5/26/00 C. From Loco Hills 5.5 miles east on Highway 82 to County Road 222. South (right) 3.9 miles to County Road 249. Left .2 miles to existing lease road. Left .7 miles on existing lease road. Left onto new lease road .1 mile to Baish Federal No. 10. Right .3 mile to Baish Federal No. 11.

### 2. Proposed Access Road

Only 0.3 mile of new road will be built.

### 3. Location of Existing Wells

Exhibit #4 shows all existing wells within a one-mile radius of the proposed Baish Federal No. 11.

### 4. Location of Existing and/or Proposed Facilities

A. If the well is productive, a 3 inch polypipe flowline and power line will be tied into the existing flowline and power line near the Baish Federal No. 9.

B. No new facilities will be built.

C. The well will be operated by means of an electric motor.

D. If the well is productive, rehabilitation plans are as follows:

1. The reserve pit will be back-filled after the contents of the pit are dry (within 120 days of completion, weather permitting).
