Change in plans due to high pressure.

Had to set Intermediate 5-1/2" casing @ 10,800' due to pressure in the Atoka being higher than anticipated. Will drill out with 4-3/4" hole and set 3-1/2" 12.95#/ft STL with liner at TD (11,500'). Attached is a revised wellbore schematic.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
