& injected into a SWD

13. Describe proposed or completed operations. (clearly state all pertinent details, starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well produced from the Upper and Middle Cisco formation 6,196' - 6,430' in November 2001. In December 2001 we shut the well in. We are currently evaluating the wellbore for productivity. We may permit to downhole commingle the Cisco with the Morrow in an attempt to produce enough volume to justify compression on the lease. This decision will be made in the next few months.

14. I hereby certify that the foregoing is true and correct Name (Printed/Typed) Chuck Sledge	Title Engineer
