3. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Chi Operating, Inc. is proposing to change the location of the Wizard Fed. Com., Well No. 2, as previously approved on the APD, from the original location of 1725' FNL & 660' FEL to a new location of: 660' FNL & 990' FEL of Sec. 1-T22S-R30E. The change is being made because of additional geologic information that has been made available recently. The location has a 12" PVC low pressure GPM gas line running east/west approximately 100 feet south of the location. The line will be moved before construction of the pad. A power line pole approximately 27 feet south of the location will be removed since the line is inactive at this time. If Ray Westall should need the line activated later, it will be reactivated by moving the line. The well will remain a north half (320) dedication. Archaeological Survey Consultants, P.O. Box D, Roswell, NM 88202, is conducting an archaeological survey and their report will be submitted to the appropriate government agencies. Everything will remain the same as the original approved APD.
