Re: G. K. Woods, Rayroux No. 1-A,
SE NE Section 24-21S-26E,
Carlsbad-Delaware Pool

With reference to your note in regard to the letter from Bob Daniels and Sons, Hobbs, New Mexico, in which they say that a Form C-103, Report of Plugging, has been filed on the above captioned well and they desire to cancel the plugging bond. We cannot terminate the bond for this well as it is a producing oil well and has an allowable of 10 BOPD in the current proration schedule and there has not been a Form C-103 filed.

I feel that Daniels and Sons are referring to Form C-103, Report of Plugging the Rayroux No. 2 dry hole in NE/4 SE/4 Section 24-21S-26E which I approved March 26, 1956 and Mr. Macey approved termination of that bond on March 29, 1956.

Very truly yours,

OIL CONSERVATION COMMISSION
