Mr. Ernest A. Hanson, Agent  
W. H. Metzner & P. L. Pipes  
Roswell, New Mexico

Dear Sir:

This will acknowledge your letter of July 8, 1952 in which you refer to an unorthodox location to be made 2310 feet from the north and east lines of section 28, T.20 S, R.27 E, Eddy County, New Mexico.

Under authority granted to me by Rule 104 of the Commission, this will constitute your permission to drill and produce the unorthodox well as you have set it out in your letter.

A copy of this letter is being sent to our Artesia, New Mexico, office in whose district the location will be drilled.

Very truly yours,

*R. R. Guerrer*  
Secretary and Director

ERNEST A. HANSON  
OIL OPERATOR  
P. O. BOX 852  
ROSWELL, NEW MEXICO

July 8, 1952.

Mr. R. R. Spurrier,  
Oil Conservation Commission,  
P. O. Box 871,  
Santa Fe, New Mexico.

Dear Mr. Spurrier:

As discussed over the phone this morning, we plan to drill a shallow test well in Section 28, T. 20S, R. 27E, Eddy County, New Mexico, on federal oil and gas lease Santa Fe 072015, Douglas L. McBride, Jr., lessee and assignor.

Because of the rough terrain, we would appreciate the administrative approval of the 330 foot location described as SW  $\frac{1}{4}$  NW  $\frac{1}{4}$  Section 28, \* instead of the 660 foot location at C SW  $\frac{1}{4}$  SW  $\frac{1}{4}$  28 as apparently required under Rule 104 of the Commission. The proposed location will save us considerable expense over a 660 foot location. The well is being drilled only to the total depth of about 750 feet, both for geological information and in hope of finding another shallow pool in the local area. Since all of Section 28 is in one lease, no offset acreage or operations are involved.

If the request is approved, will you kindly mail one copy direct to contractor, Kersey.

Yours very truly,

W. H. MONTNER & P. L. PIPES

By

  
Ernest A. Hanson, Agent
