Mr. M. L. Armstrong
Oil Conservation Commission
321 Carper Bldg.
Artesia, New Mexico

Dear Mose:

Reference to your letters concerning the J. Glen Bennett wells Pardue #1, Sec. 12-23-27 and the Gulf-State #1 Sec. 17-21-27, before I went on vacation I checked with Joe Thorpe, Production Supt. for the late Mr. Bennett, on these wells.

According to Mr. Thorpe's information, the Gulf-State has been shut down since Mr. Bennett's death. I do not know what the status of it was before the well was shut down, but I will check with Joe and get some information to you as soon as possible.

We have not filed the well record on the Pardue, as I understood that further work was to be done on the well, as required by the Commission. We will, however, go ahead and file the final report, as soon as I can obtain all the necessary formation records etc..

Thanks.

Yours very truly,
