Mexico.

Dear Mr. Curry:

With reference to my letter of April 12, 1954, in regard to plugging the above captioned well and also my conversation with you several days later, you stated that Mr. Binkley, your partner in this operation, was in Arizona and as soon as he arrived back in Carlsbad you would inform this office at the same time as to a plugging program for this well.

Since operations on this well were suspended on or about June 10, 1952, we feel that the well should be properly plugged and abandoned in compliance with Paragraph "C", Rule 202, of the New Mexico Oil Conservation Commission's Rules and Regulations. Please give this matter your immediate attention.

Very truly yours,

OIL CONSERVATION COMMISSION
