Attn: M. L. Armstrong

Dear Sir:

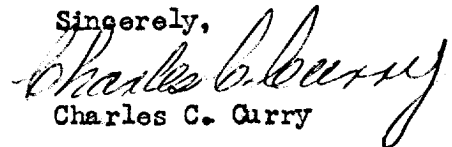

In reply to your letter of September 23 I would like to advise you that I would like to make one final attempt to pull fish out of the Wildcat well in Lot 14, Sec 1-21S-27E. If this attempt should prove unsuccessful I will plug well with rig used. All of this to occur within the next 30 days at the most.

Will you please advise me as to what forms I should file with you and how many copies of each? Also if I do not have at present correct forms where can I obtain some?

Also please forward me your schedule for plugging this well, leaving in all casing. We plugged off the bottom of the casing and further down a small water strata during time we were drilling several years ago.

I thank you very much for your patience and will endeavor to do my best to carry out your instructions so that I may either proceed to finish this well or plug & abandon it. If necessary I will come to Artesia and work out details of any matter to be suitable to you.

Sincerely,

  
Charles C. Curry
