El Paso, Texas,
1005 North Mesa Ave.,
February 22, 1935.

Mr. Frank Vesely, Commissioner,
State Land Office,
Santa Fe, New Mexico.

Dear Sir:

On July 1st, 1934, a well was spudded in for the drilling of oil and/or gas 1980' from north and east lines of Sec. 15, Twp. 21S, R.27 E, in Eddy County, State of New Mexico, by the A & M Petroleum Company under direction of A Wm. Rutter and R S Magruder of El Paso.

I understand this well was abandoned after reaching a depth of several hundred feet and a new well started closely adjacent thereto, same Section, Township and Range.

I am writing for the purpose of asking if you will be good enough to advise me what your State Official records show respecting varying depths attained and dates, including your last record of depth and date this record was taken.

Assuring you of my appreciation of this courtesy,

Very truly yours,

G. V. HOOPENGARNER.

Mr. Frank Vesely, Commissioner,
State Land Office,
Santa Fe, New Mexico.

Dear Sir:

On July 1st, 1934, a well was spudded
in for the drilling of oil and/or gas 1980'
from north and east lines of Sec. 13, Twp.
21S, R. 27 E, in Big Horn County, State of New
Mexico, by the A & M Petroleum Company under
direction of A. Wm. Rutter and R. S. Warringer of
El Paso.

I understand this well was abandoned
after reaching a depth of several hundred feet
and a new well started closely adjacent thereto,
same section, Township and range.

I am writing for the purpose of asking if
you will be good enough to advise me what your
State Official records show respecting varying
depths attained and dates, including your last
record of depth and date this record was taken.

Assuring you of my appreciation of this
courtesy,

Very truly yours,

C. V. HOFFENHAUSER.
