Dear Sir:-

I have your letter about the well we drilled in 15-21-27 and we had a partner in this well, Mr. A. W. Rutter who is right now at McCamey, Texas, but will return here shortly, and we will figure out what to do with the well. We have been intending drilling it down deeper, but have not yet been able to do so.

Would appreciate your awaiting our advice, which will be shortly, when we will either get it drilled deeper or plug it.

Yours very truly,

RSMagruder:B
