Re: R. S. Magruder - Pacific
Coast Land Well #1, SW/4 NE/4
Sec. 15-21S-27E, Eddy County,
New Mexico

Dear Sir:

The following information is in reply to your letter of February 9, 1960, regarding the above-captioned well:

The well is located 1980 feet from the north line and 1980 feet from the east line of Sec. 15-21S-27E. This is the best description I can give you as to the location of the well. The only records we have in our files are the notice of intention to drill, the notice of intention to deepen, and a scout report that the scout made after Mr. Magruder started to deepen the well from 1553 feet to 2350 feet. The scout report states that 2050 feet of 7-inch pipe was run. I do not know whether this pipe has been pulled.

I am enclosing a copy of Rules and Regulations of the New Mexico Oil Conservation Commission. This should give you the information you need regarding the plugging procedure for the above well. If you have further questions please do not hesitate to contact me.

Very truly yours,

M. L. Armstrong
Supervisor, District No. 2
