

STATE LAND OFFICE

Santa Fe, New Mexico

GUY SHEPARD
COMMISSIONER OF PUBLIC LANDS

September 13, 1949

Mr. Roy A. Yarbrough
c/o Oil Conservation Commission
Hobbs, New Mexico

Dear Roy:

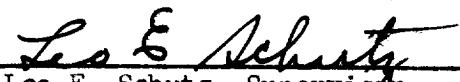

Several months ago we cancelled a lease in the name of R. A. Nipper. This lease covered the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 21-20S-28E.

According to our records, back on February 7, 1945 there was a well drilled on it and, according to information received, the well was capable of making nine million cubic feet of gas per day, but was shut in as there was no pipe line facilities.

Would like to have you look into the matter of this well and advise as to your findings.

Yours very truly

GUY SHEPARD
COMMISSIONER OF PUBLIC LANDS

Leo E. Schutz, Supervisor
Oil and Gas Division
