Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____
Dr. George Turner State B-9775 Well No. 1 in SE 1/4 SW 1/4 NW 1/4
 Company or Operator Lease
 of Sec. 21, T. 20S, R. 28E, N. M. P. M., Wildcat Field.
Eddy County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Following telephone permission to plug and abandon well, thirty sacks of cement were mixed and dumped with a bailer at the bottom of the hole. After forty-eight hours the tools were run in the hole and stopt 80' off bottom. This filled the hole solidly with cement to a level slightly above the top of the first sand. All water was found shut off, and the prospective oil sands covered with cement. 220' of 7" casing was pulled leaving 425' of 7" casing and 200' of 8 5/8" casing in the hole. The 8 5/8" casing comes to the surface so the dry hole marker is screwed to this after being filled with cement. The rig has been moved away; the pit filled and the ground leveled.
